Manish Karandikar, Founder, Director of Embedded Creations and Director-Difi Digital Fashion Park Private Limited, Nagpur (MS) has always believed in power of students and youth since his graduation days. He has always involved young brains and ideas in every project. This involvement of young interns has always proved to be innovative and fruitful.

He strongly believes, since his graduation years that for success of any idea and its ultimate conversion to useful product needs perfect blend of Energy, Enthusiasm and Experience. This is the success mantra of all above projects and Internships. All three E's are reflected in every project and internship program listed in above table.

He has always found that High Rank Officers are always supportive and encourage every new idea that has potential to serve society as a product.
